

## Two complete exhibition kits

Here are just two of the SnapUp options ready to go for a successful exhibition. Many others are available. See our general price list.

### "Top of the line" kit

The case can be easily converted into a counter, with wrap around graphics.

#### MP1 Kit - item 7805

- One complete 4x3 MP1 structure, item 82204. Total size: 2875 (w) x 2255 (h) x 840 (d) mm
- One hard case/counter on wheels, item 5040.
- 2 Halogen spotlights 200W, item 80006.

### "Budget" kit

#### MP2 Kit - item 7808

- One complete 3x3 MP2 structure, item 82213. Total size: 2550 (w) x 2225 (h) x 720 (d) mm.
- Two padded carrying bags for the structure and the graphic panels, item 5045 and 5046.

### Double sided option

All curved and straight systems can be delivered with extra magnets and mag-bars to carry graphic panels on both sides if required. Please ask for the double sided option when placing an order.

#### Frames & Banner Rails

#### Sign & Poster Stands

#### Backwalls & Exhibit Kits

#### Banner Stands

#### Trade Show Stands

#### Pop-Up Stands

**Mark Bric**

## A Family of Dependable Displays™

Since the invention of Flexiframe in 1985, Mark Bric has, year-by-year, developed a complete programme of easy to use, reliable and economically priced display and exhibition products. Directed at the sign, retail and trade show industries worldwide, it is now probably the most comprehensive product range on the market for indoor displays. Our network of distributors and dealers in over 70 countries around the globe, guarantees that all our existing and future clients, will have the best possible advice and service on all Mark Bric products. Whenever and wherever your next presentation event takes place... We get your message across®.

## Pop-Up Stands

Ideal systems for large format graphics

**Mark Bric** **SNAPUP**  
A Family of Dependable Displays

# SnapUp™ products

High quality stands of Pop-Up type

Mark Bric produces two professional SnapUp models with unparalleled durability and quality of workmanship: **MP1** (MagnetPro-1) and **MP2** (MagnetPro-2). Both systems are compact, portable and extremely user-friendly. Curved, straight or cylindrical shapes, as well as different formats are available to fit all types of display requirements. The SnapUp products allow for fast exposure of seamless large scale images. Text and graphics are totally uninterrupted and will attract full attention.

## MP1 (MagnetPro-1)

MP1 is our top-of-the-line SnapUp model. Its cross-braced construction gives maximum strength and rigidity to the system, and most important, the graphic panels will always hang perfectly. MP1 is available in the classic curved pop-up format, to ensure that the graphic images are displayed with full effect.

MP1 has a cross-braced construction and is identified by its burgundy "hubs".

All our standard SnapUp modules are designed to be fitted with elegantly rounded end-panels. An ideal place also for company names, logos, slogans etc.

## MP2 (MagnetPro-2)

MP2 is our most versatile SnapUp model and at the same time, very economically priced. Absence of the cross-bracing makes it a traditional pop-up system and allows deep display shelving. MP2 is available in a curved, straight or cylindrical (tower) shape.

The size of a PopUp system is often referred to as the number of quads (wxh) it consists of. This model is a 3x3 system. MP2 is identified by its grey "hubs".

An impressive point-of-purchase display, with eye-catching graphics, in a department store. Here used in combination with Flexiframe tables to exhibit products on sale.

The curved 3x3 MP2 unit is one of the most popular SnapUp models. Combined with a practical counter/case unit, with wrap around graphics, it gives you even more possibilities to create a professional display.

A tower unit resembles a traditional advertising pillar, giving an exceptional creative display area.

## What does the term MP (MagnetPro) stands for?

The MagnetPro systems have some unique features, which make these systems extremely easy to assemble, compared to other more limited and complicated systems:

1/ When erected, the aluminium structure is automatically and instantly held into position with **magnetic locking pins**.

2/ When mounting the quick fit **magnetic bars**, just attach the top edge of the bar to the "hub" and the bottom edge will position itself automatically.

3/ Super-strong **magnetic tape** on the reverse side of the panels will simply attach to the magnetic bars already mounted on the structure.

## Shape, configuration and size

### Curved units

**MP1 - 4x3, item 82204**  
2875 (w) x 2255 (h) x 840 (d) mm  
**MP2 - 4x3, item 82214**  
3150 (w) x 2225 (h) x 960 (d) mm

**MP1 - 3x3, item 82203**  
2300 (w) x 2255 (h) x 600 (d) mm  
**MP2 - 3x3, item 82213**  
2550 (w) x 2225 (h) x 720 (d) mm

**MP1 - 2x3, item 82202**  
1700 (w) x 2255 (h) x 400 (d) mm  
**MP2 - 2x3, item 82212**  
1980 (w) x 2225 (h) x 530 (d) mm

**MP1 - 1x3, item 82201**  
820 (w) x 2255 (h) x 200 (d) mm  
**MP2 - 1x3, item 82211**  
1290 (w) x 2225 (h) x 400 (d) mm

### Straight units

**MP2 - 4x3, item 82224**  
3452 (w) x 2225 (h) x 320 (d) mm

**MP2 - 3x3, item 82223**  
2724 (w) x 2225 (h) x 320 (d) mm

**MP2 - 2x3, item 82222**  
1996 (w) x 2225 (h) x 320 (d) mm

**MP2 - 1x3, item 82221**  
1268 (w) x 2225 (h) x 320 (d) mm

### Tower unit

**MP2-3x3, item 82231**  
650 x 2225 (h) mm

### Connected units

All curved and straight models can be connected, system to system, to cover a larger exhibition area.

## Step-by-step It can't be easier!!

## SnapUp accessories

Our multiple-use hard transport case can easily be converted into a counter with wrap around graphics. It has three well-protected compartments: One for the structure, one for the graphic panels and one (the lid) for 2 spotlights. The lid may also be used as a step when assembling the spotlights on the system. Two alternative wooden counter tops in black and beech are included. The case is equipped with heavy-duty, easy-roll rubber wheels. **Item 5040.**

Halogen spotlight, 200W mains voltage, with easy fit connector to the system. **Item 80006.**

Padded carrying bag with shoulder strap for the structure. **Item 5045.** Padded carrying bag with shoulder strap for the graphic panels. **Item 5046.**
